Nene Education Trust

A guide for Parents and Carers
Using IT to support
learning

The Nene Education Trust is committed to creating a safe teaching and learning environment in its academies.

The Trust recognises the impact that the effective and safe use of educational technology can have to enhance teaching and learning in the classroom and at home.

Our intention is that technology used across the Trust will enhance and not hinder the working practices of staff and students.

As a parent of a child in one of our schools we ask you to support us in ensuring that our students are kept safe and protected at all times.

We understand that when supporting learning at home this can be rather challenging.

All you can do is your best and your best is good enough!

How to support your child:

- Support your child as needed with accessing the relevant IT systems safely at home.
- Speak to your child's teacher, Kerry Mills (Principal) or Rich Bosworth and Lucy Coleman if you have any problems.
- Act as a positive role model at all times.
- Keep login information confidential for your child
- Inform teachers of any inappropriate behaviour;
- Follow the instructions given to you by Academy staff respecting their guidance at all times.
- Never use any school student systems to share personal information such as telephone numbers, email addresses, or social media contacts with another student.
- Never use your child's logins to attempt to communicate with staff, other children or other parents.
